Thanks (b)(3)/(b)(6)

Your personal guess is right on the money in my opin...

AQ - Al Shabaab coordination and connection is much higher than I knew about...so those training camps are breeding some capable rats. Gonna have to get at them sooner or later/ IMHO

(b)(1) 1.4.a, (b)(1) 1.4g

Keep at it in the high block, General!!! And let me know when I need to increase my SA locally....

Congratulations to you and (b)(3)/(b)(6) on your well deserved promotion.

Hope you and your warfighters have some kind of a merry Christmas.

R/

Sir,

I've pulled all the data wrt (b)(1) 1.4.b and DJI. It looks like we are ready to execute any support required from and RPA perspective.

The only issue we see right now is that the ramp at DJI is MOG's out and we have (b)(1) 1.4g

We are preparing for at least 2 to 4 more CAPs worth when the AOR can sustain the Logistics to support.

Other than that all is quiet from our perspective in that corner of the world...but I know we are missing something.

Hope all is well Sir...I will drop you a line when things start to move in that direction.

My personal guess is we will be heavy in your neighborhood in the next 2 to 3 years.

Very Respectfully

(b)(3)/(b)(6)

Just trying to get a feel of the Africa Operations from the warrior who knows the most.

Any insights or concerns on future operations?

Sir,

Just digging out of a pile o' e-mails.

Sorry for the delay...COMACC has had me by the tail for the last month.

Are you still looking for anything on this?

My apologies again for delay

Vr

(b)(3)/(b)(6)

hope all is well at Creech

would appreciate any feedback you can provide on (b)(1) 1.4 a I won't use your name or position at all with the info - just for my SA.

Thanks
